## **7. SUMMARY DESCRIPTION**

Ebenezer Primitive Baptist Church (DHR # 021-0657) is located adjacent to the northeast boundary of the Greenway National Register Historic District at 14374 Lord Fairfax Highway. According to the datestone, the current building was constructed in 1918 replacing an earlier 1897 church. Built as a Baptist church for an African-American congregation, the 1-story, gable-end frame building is three bays deep and contains a mid-20<sup>th</sup>-century, shed-roofed, concrete block side wing. The church, which is located on the west side of Route 340 as it makes a turn to the north near the village of White Post, sits on a 1 ½-acre tract that includes a cemetery containing approximately 200 marked graves. A graveled driveway south of the church leads to a grassy parking area. A modern, five-foot monument sign of brick and plyboard, located in the front yard, states the name of the church and the time of services.

## **ARCHITECTURAL ANALYSIS**

Located on the outskirts of White Post directly adjacent to a northeastern boundary of the Greenway Historic District, Ebenezer Baptist Church was constructed in 1918 on the site of an 1897 church that burned.<sup>1</sup> The 1-story, gable-end frame church, which fronts onto Route 340, rests on a random rubble stone foundation and is three bays deep. Square-headed, double-hung wood windows with a pointed-arched tracery pattern, as well as the diamond-shaped attic window in the front gable end, give the building its vernacular Gothic Revival appearance. The church is currently clad in asbestos siding and features a standing-seam metal gable roof with overhanging eaves and an exterior side brick flue. A gable-roofed entrance bay is located on the front of the building with side concrete block lean-tos that contain bathrooms. The bathrooms are naturally lighted by small windows of glass bricks laid in a Latin cross pattern. A shed-roofed rectangular chancel bay projects from the rear and appears original. A mid-20<sup>th</sup>-century concrete block wing projects to the north side of the original church. The roof is clad in v-crimp metal and the wood windows are 1/1-sash. Other details in the wing include an interior brick flue, several doors, and T-111 siding in the attic story.

The interior of Ebenezer Baptist Church is very much intact and features original flooring, wainscot, and pews. The side addition contains a kitchen and meeting room.

A cemetery surrounds the church on three sides and contains approximately 200 marked graves. The oldest stones are located directly adjacent to the back of the church building and the earliest legible death date noted is 1892. A number of graves are marked only with small fieldstones bearing no inscriptions and in fact may predate the 1892 burial. Several prominent local African-American families are buried in the cemetery including Crittendon, Jackson, Laws, Morris, Payne, Sloane, Tigney, Washington, Williams, Wedlock, and Whitmore, among others.<sup>2</sup> These include some of the first trustees of the church when it was established in the mid-1880s.

The Greenway Historic District contains several African-American churches similar in form to Ebenezer Baptist Church. This supports its inclusion as a contributing building as well as the surrounding cemetery as a contributing site that sits on the same parcel.
