Subject: Replacement for Robert E. Lee statue
Date: Thursday, August 6, 2020 10:02:24 AM

The perfect replacement for the Robert E. Lee statue at the U.S. Capitol would be one of James Madison. He was the architect of the United States Constitution, as well as a native of Virginia, yet he is one of the most overlooked of our Founding Fathers.

When statues are removed, no new statues should go up, in the name of true equality for all races and genders. Why remove a white person statue to replace it with a black person statue and offend others?

Instead, replace statues with gardens, fountains and trees as places of peace and tranquility.

Ladies and Gentlemen:

Dear Ladies and Gentlemen:

I replied as soon as I saw the announcement on FaceBook. How much advance notice was given to the public? After receiving an acceptance form and passcode, I was led to believe that I would be accepted to speak about the Robert E Lee monument in Statuary Hall. Also, this morning, I saw my name on a list of speakers. Wouldn't you agree if you were in my position? Something as important as this matter needs to be considered and heard by as many people as possible. (Why not a statewide Virginia vote?) General Robert E Lee's father, Harry Lee, was a Princeton Graduate, war hero and Virginia Governor. Son, Robert E Lee, was an honor graduate of West Point, University President and Lee was asked to fight for the Union but could not lift a sword against his native Virginians. The people in today's Virginia should give General Robert E Lee as much thought and consideration as he gave his beloved Virginia. Below is what I am writing to the main address for your consideration:

Ladies and Gentlemen:

I was on the list of attendees for this morning's call but was not asked to speak. I heard you listen to a few calls to remove the Lee statue from the US Statuary Hall and then you had a vote to remove General Robert E. Lee. I waited to speak in favor of keeping Lee in the Statuary Hall. It seemed that everything was hurriedly conducted to remove Lee from the Washington DC Statuary Hall. The way you treated the honorable General Robert E Lee and his legacy was disappointing and shameful. It appeared that you already made your decision to remove his statue.

There are 7,525 signatures on a petition to keep the Robert E Lee monument in the Statuary Hall. The 344 pages with the 7,525 signatures are attached and I can get more signatures, if needed.

This morning, I heard worn-out rhetoric, propaganda, prejudices and lies to remove anyone who was a Confederate as a white supremacist, racist, fighting for slavery, traitor and more. All of these are historically inaccurate as well as lies. Sometimes, look at the faces of young Confederate soldiers. Most were in worn-out clothes, were outnumbered and just country boys who were teenagers or barely in their

twenties. Often they died on the battlefield without being buried or buried in shallow, mass and unmarked graves. Only God knows the whereabouts of their remains. That is the reason for many statues to commemorate their efforts and to remember them.

- The Confederacy consisted of whites, blacks, Hispanics, Jewish people and even a few Asians. **NO white supremacy.** Many were soldiers, musicians, chefs, teamsters, chaplains and more.
- The war was NOT about slavery. Read Lincoln's Inaugural address in which he stated that he did not want to interfere with slavery. (If that is all the South cared about they would have remained in the Union with a guarantee of slavery protections from Lincoln). Read the Crittenden Johnson Resolution in which it stated the war was over once the South returned to the Union. No mention of slavery. Congress created the Corwin Amendment to keep slavery in perpetuity. The Emancipation Proclamation was created to cause slaves to revolt or escape the plantations (Less than 10% of Southerners had slaves). Also, Lincoln had NO control over the Southern slaves and the Emancipation Proclamation failed to free slaves in the North where he had control. There were 5 slave states in the Union. Why would Lincoln keep slave states in the Union if he was fighting to abolish slavery?
- The South sent Louisiana Representative Duncan Kenner to England and France to garner their support for the Confederacy if the South ended slavery. The Confederacy would not do this if they were fighting to keep slavery.
- The North would not be in a hurry to free slaves, especially when it was the NORTH who brought slaves here. The states of New York, Connecticut, Rhode Island, New Hampshire, and Massachusetts made a fortune as slave traders bringing here slaves purchased from African tribal leaders. Many slaves were treated poorly by the slave traders on the long journey and many not surviving the long trips across oceans.
- There are comments from Lee in which he told his wife that "slavery was a moral and political evil." Lee prayed about the end of slavery. Lee left the war to free his wife's slaves according to his father-in-law's will. Union Generals Ulysses S Grant and William T Sherman kept their slaves until after the war or until Amendment 13 was passed. Why were they keeping their slaves if they were trying to abolish slavery? The reason? The war was NOT about slavery.
- NO one in the Confederacy was charged with treason or being a traitor. Decades earlier Lincoln said that secession was legal. Read Congress' Public Laws 85-425 , Section 410 (1958) and Public Law 810 (1929) stating that Confederates were **EQUAL** to US veterans.
- The South seceded because they felt that they were oppressed by the North. The North was charging the South too much in taxes which were spent

mostly in the North. Read about the Morrill Tariff which many thought was the impetus for the war. The Morrill Tariff raised the tariff to 47% which was a hardship for the South to pay. The North needed the South back in the Union as they needed the tariff and business from the South. With the secession of the South, the North's economy was adversely affected and they were losing jobs. The North invaded the South to force it back into the Union at the end of a bayonet.

- See attached photograph of General Robert E Lee's monument installation in Richmond in 1890. There was no Jim Crow in this picture. These men appear to be in their Sunday best and there are at least 5 African Americans down front. You have been lied to about Jim Crow.
- See attached list of over 7500 signatures to keep Lee in the Statuary Hall. I can get more.
- The following is a comment from President Abe Lincoln. "*I am not nor ever have been in favor of bringing about in any way social and political equality of the white and black races. That I am not nor ever have been in favor of making voters or jurors of Negroes, nor of qualifying them to hold office, nor to intermarry with white people. I as much as any other man am in favor of having the superior position assigned to the white race.*" (1858 statement by Abe Lincoln) I will let you decide if Lincoln was a "white supremacist" and if he was willing to kill over 700,000 people, burn down thousands of homes, destroy crops, steal livestock, steal silver, and destroy items troops could not carry away, threaten servants to reveal where valuables were hidden, rape and murder civilians in order to free people Lincoln thought were less than he?

I noticed mostly women on this morning's call. I am sure that you all are aware that we women were not even allowed to be on juries, to vote or to buy property during the 19th century. We were considered mostly property of our husbands. Also, during this time homosexuals were arrested and incarcerated. Our customs, culture and mores have changed a lot over generations. We don't need to wipe away people or sanitize our history to change with the times. All of you are educated, intelligent and successful. I doubt that any of you have any problem being around statues of long dead men or women of different centuries, beliefs, or culture.

"The monuments, statues and icons are historical fact and whether you like them, disagree with them or are on a zealous mission, there is NO VALID excuse for depriving the next generation of them in your quest to rewrite or sanitize what actually was. This is **CENSORSHIP** of the worst kind, the rewriting of history or the hiding of it from public view. **WE ARE THE CARETAKER GENERATION. WE HAVE NO RIGHT TO CENSOR HISTORY FOR THE COMING GENERATIONS.**" (Gary Gobel)

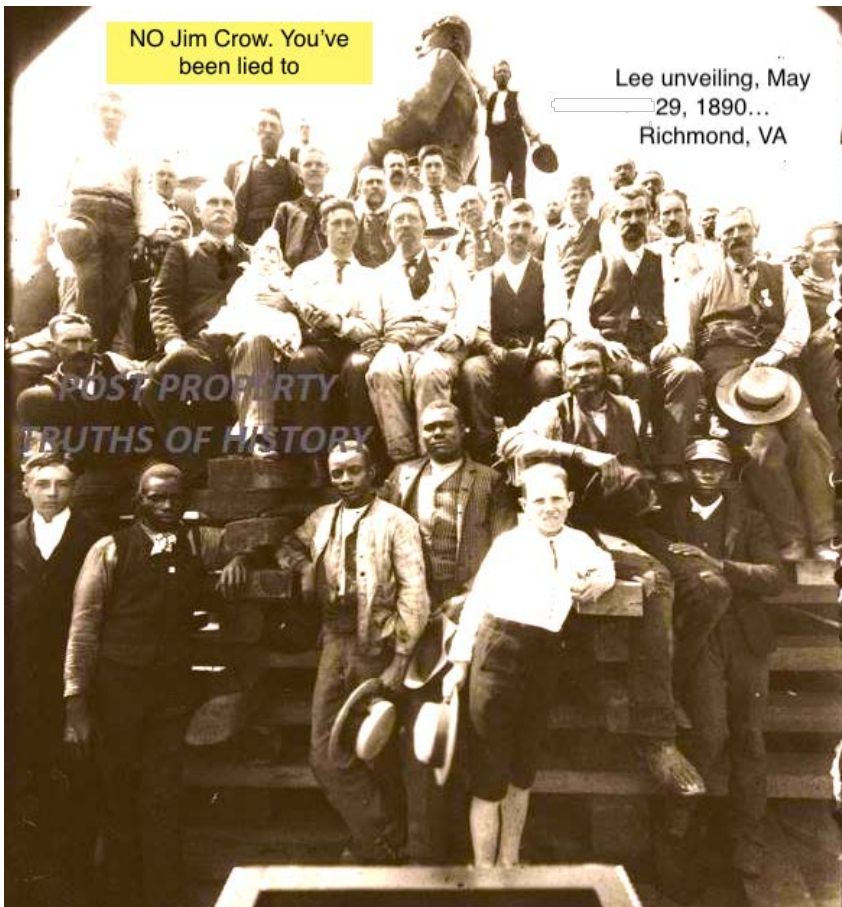

Thanks for your time and consideration. **KEEP GENERAL LEE IN THE STATUARY HALL!**

Proud member of the Daughters of the American Revolution and United Daughters of the Confederacy.

PS....My Mother, Lucy Staley Touchton, in heaven was a granddaughter of two Confederate soldiers and I am sure she was proud of them. I am a great-granddaughter of American Revolution and Confederate soldiers. One was incarcerated in Point Lookout Prison, Maryland, where many prisoners starved, suffered inclement weather, horrible living conditions and many died while in prison, and suffered cruel treatment.

A Black Confederate family is presented a ceremonial flag in honor of their CSA/American veteran ancestor. None has ever been refused. Mass media never covers these events. Now you know why.

"Black civil rights activists, their white liberal supporters and historically ignorant Americans who attack the Confederate flag have committed a deep, despicable dishonor to our patriotic Southern black ancestors who marched, fought and died not to protect slavery but to protect their homeland from Northern aggression. They don't deserve the dishonor."
